SyncBackup - backup script for the Synchronet BBS (1.0)

Creates a hot backup of your Synchronet BBS installation.

Official support sites: Official Github Repo - Official Forum

i.   Edit the settings at the top of syncbackup.pl if needed

ii. create a cron job like this:

```
1 1 * * * /root/syncbackup/syncbackup.pl
```

iii. This will back up your SBBS installation at 1:01am each day, and keep the last 5 backups.
